I am a graphic artist and web designer...
building virtual visual effects for work and play.
Enjoying the brilliance of digital display,
I have focused on creating visual impacts that enhance the message and excite the viewer.

My skills include

- PHP and Web Design
- Graphic Art
- Application Design
- Report and Form Design
- Drawing and Watercolor Painting
- Procedure, Package and Function Coding
- SQL, MySQL, Oracle
- Database Administration

I have had the opportunity to experience a variety of settings where both design and technology were necessary

- Web site design for a variety of clients including a church, musician, artist, and writer
- Illustration work for a children's book and magazine articles
- Newsletter design for Unity Center of Boise
- Watercolor teacher for a private art studio
- Oracle application design with SQL and PLSQL programming
- Oracle, Access and Rbase database environments
- Forms and reports for many in-house applications
- Database management on NT and VAX

Training

- New Horizons Web Club and Graphics Club Classes - 2004 through 2005
Training includes: HTML, Dreamweaver MX, Flash MX, Photoshop CS, QuarkXPress 6, Illustrator CS, InDesign CS, CorelDraw 11, PageMaker 7, FrontPage 2003, Publisher 2003
- Various Oracle Technical Training Courses - 1993 through 1999
- Watercolor Painting, Computer Graphic Art - BSU 1990

Degrees

- Illinois Wesleyan University - Bachelor of Fine Arts in Art Education
- Boise State University - Bachelor of Science in Computer Information Systems
